

Huzaifa Haris - Software Engineer

Email: huzaifaharis773@gmail.com
Contact: +92 322 5456517

Address: Bhattai Colony, Korangi Crossing, Karachi
Portfolio: <https://portfolio-beta-flax-70.vercel.app/>

Objective

Enthusiastic and results-driven Software Engineer with hands-on experience in **PHP, Python, MySQL, web development, and shopify**. Passionate about backend design and MVC architecture, I am eager to join your team as a shopify. While I bring solid foundational skills in modern web development, I am a fast learner who quickly adapts to new tools, packages, and frameworks when given the opportunity to work on real-world projects.

Education

Quaid-e-Awam University of Engineering, Science & Technology Bachelor of Science in Information Technology. GPA 3.81	Nawabshah Oct, 2024
Govt. Boys College Intermediate. Grade A	Nawabshah Aug, 2020
Shah Wali Ullah School Matriculation. Gade A	Nawabshah May, 2018

Technical Skills

- **Core Backend & Frameworks:** PHP, Laravel (Basics), Django, REST APIs, JSON, AJAX
- **Database & Tools:** MySQL, PostgreSQL, Database Optimization, Git/GitHub
- **CMS & Web Technologies:** HTML5, CSS3, JavaScript, Tailwind CSS, liquid
- **Core Competencies:** Debugging, Clean Code Practices, UI/UX Backend Integration, Rapid Tech Adaptation

Experience

Qonkar Technology Pvt Ltd, Nawabshah Software Engineer	Dec 2025, June 2026
• Developed backend APIs and integrated modern frontend interfaces using dynamic views and responsive CSS frameworks. • Participated in full-stack architecture discussions, implementing RESTful endpoints and data serialization. • Developed and customized responsive Shopify themes utilizing Liquid, JavaScript, and modern CSS frameworks to deliver optimized, high-converting ecommerce storefronts. • Demonstrated strong adaptability by rapidly acquiring new framework concepts and AI integration workflows to meet project goals	
Hidaya Institute of Science & Technology, Jamshoro Web developer Intern	Feb 2025, May 2025
• Built, maintained, and enhanced PHP and MySQL-based web applications adhering to standard web structures. • Optimized SQL queries and database structures to improve application loading times and data retrieval efficiency. • Implemented responsive UI design principles, integrating frontend layouts seamlessly with backend systems.	

- Collaborated on debugging and testing core site features to maintain clean, scalable code

Certification

LinkedIn

Full Stack Development

2024

- Learn how the frameworks architecture works and create application from scratch
- Basic to advance concept of the software development and the best practices.
- Git/ GitHub for version controls.

iNeurons

Foundational GenAI

2024

- The GenAI and the LLMs conceptual working mechanisms and how we implement into the projects.
- The memory of the chats, model training and RAG base apps with the Vector Database (ChromaDB)

FreeCodeCamp

HTML & CSS for Responsive website

2024

- Learn basic tags and their core fundamental concepts for where we can use with user authentications
- Responsive design with the vanilla CSS and then implements with the Tailwind CSS

Key Soft Skills

- **Fast & Driven Learner:** Proven track record of picking up new frameworks, libraries, and tools on short notice.
- **Problem Solving:** Strong analytical approach to debugging backend code and optimizing performance.
- **Team Collaboration:** Excellent communication skills with experience participating in team-driven project lifecycles.
